

WHERE MONEY, POWER, AND SPEED COLLIDE.

BRAND GUIDELINES · DRAFT 1

01 · ESSENCE

SMART. FUNNY. INSIDE THE PADDOCK.

Racing Inc. Media is a live F1 show, blog and newsletter about **the money, power and speed behind the sport**, hosted by Vanessa Castro and Chloe Wooten.

INSIDER ACCESS

Chloe is an engineer, and her husband was Max Verstappen's engineer at Red Bull. Real perspective, and with permission, real sources.

BRAINS + SNARK

Engineering qualifications on one side, a Harvard political science degree on the other. Deep, then hilarious.

BUSINESS OF RACING

Budgets, contracts, politics, power. Not another engineering channel; the funny, sharp friends who explain it.

02 · LOGO

ONE MARK. USE IT AS DRAWN.

Supplied by David as vector artwork. Never retype, redraw, stretch or recolor it. The final letter is a custom red G, which doubles as our symbol.

The word "RACING" in a bold, italicized, sans-serif font, followed by a large, stylized red "G". The "G" is a custom symbol that also serves as the brand's icon.

PRIMARY · ON BLACK

The word "RACING" in a bold, italicized, sans-serif font, followed by a large, stylized red "G". The "G" is a custom symbol that also serves as the brand's icon.

ON LIGHT

The word "RACING" in a bold, italicized, sans-serif font, followed by a large, stylized white "G". The "G" is a custom symbol that also serves as the brand's icon.

ONE-COLOR WHITE

The word "RACING" in a bold, italicized, sans-serif font, followed by a large, stylized black "G". The "G" is a custom symbol that also serves as the brand's icon.

ONE-COLOR BLACK

SYMBOL AND AVATARS

The red G is the favicon, avatar and watermark. In circles it sits inside the central ~60%.

CLEAR SPACE AND MINIMUM SIZE

Keep at least **half the logo's height** clear on every side. Minimum width **120 px** (25 mm in print); below that, use the symbol.

DON'T

Stretch or squash

Recolor

Add effects

Put it on red

Rotate

Shrink below minimum with the full logo

BLACK FIRST. ONE RED.

Black

Logo letters, text on dark

Racing Red

#BE1E2D

The G, CTAs, one highlight

PROPORTION

Contrast: off-white and silver on black pass WCAG AA for body text. Racing Red on black is about 3.2:1, so it's for large text and graphics only. Use off-white on a red chip for small labels.

04 · TYPOGRAPHY

**WIDE. BOLD. LEANING
FORWARD.**

DISPLAY · ANYBODY · WIDTH 150 · 900 · ITALIC · UPPERCASE

**MONEY. POWER.
SPEED.**

Headlines, graphic text and thumbnails. Echoes the slant of the logo. Open-licensed (SIL OFL); self-hosted.

BODY · INTER · 400 / 600

Why did the cost cap change everything? Because in a sport where money buys speed, limiting the money rewrites the whole pecking order, and the teams have been arguing about the accounting ever since.

LABELS · ANYBODY · WIDTH 100 · 600 · +0.2EM · UPPERCASE

Use for tags, segment names and captions under ~14 px.

TWO FRIENDS WHO KNOW TOO MUCH.

WE ARE

✓ Quick, witty, confident

✓ Insider-informed, plain-spoken

✓ Warm and conversational

✓ Opinionated, with receipts

WE ARE NOT

✗ Mean about private lives

✗ Jargon-heavy or gatekeeping

✗ Corporate or press-release stiff

✗ Rumour-mongering or clickbait

1. Explain every technical or financial term in one sentence, with a joke if one fits.
2. Take positions, and say which parts are fact and which are opinion.
3. Punch up at situations and institutions, never down at individuals.
4. Insider information is used only with permission. NDA status is being confirmed; until then, no naming sources.

NO DEAD SPACE.

Tight crops, tight letter-spacing, elements that interlock instead of floating. Black-and-white host portraits against a checkered flag, same crop and treatment for both hosts. The flag is a faint texture, never behind body text.

Thumbnails: one face, big emotion, 3 words max in the display font, one red highlight word, small logo in a corner.

Cleanup: remove the faint "HOLLYWOOD" watermark from the draft cover, and confirm rights to the portraits and the flag image.

Third-party marks: F1, team and driver marks are never part of our identity.

08 · OPEN ITEMS

NEEDS YOUR CALL.

1. **"INC." in the logo.** The supplied logo reads RACING. Is the brand "Racing" in the logo and "Racing Inc. Media" elsewhere, or do we want an "INC. MEDIA" lockup?
2. **The G.** Does it nod to anything (initials, a letter G + C)? It affects how we explain the symbol.
3. **Display font:** Anybody (free) or Brigends Expanded (\$29)?
4. **Show title and segment names.**
5. **Tagline lockup** under the logo: approve?
6. **NDA and sources:** what can be named on air?
7. **Photos:** clean cover without the watermark.
8. **Trademark search** for "Racing Inc." and the logo.
